

ORGANIC FARMERS ASSOCIATION &

bearcognition

Bear Cognition is a data intelligence firm that helps the farming industry with data driven decisions, reporting, & evaluation from seed to harvest.

Bear Cognition can collect, organize, manage, and visualize data for the following areas:

- Commodity price tracking & optimization
- Fleet vehicle management
- Financial data & forecasting
- Grant Recipients - Evaluation of key milestones & progress throughout the grant lifecycle
- And many more areas!

Even better, if you are a member of OFA, you get up to 40% off Bear Cognition services!
